PROJECTS

Digital Portfolio for Designers:

Digital portfolios for designers are crafted to optimize creative presentation and user engagement, leveraging advanced design technologies for enhanced functionality This project explores the development of a digital portfolio using interactive interfaces, responsive layouts, dynamic visuals, user-friendly navigation, and a mobile-optimized design. The portfolio aims to streamline showcasing work, maximize visual impact, and reduce the effort required for clients or employers to explore the designer's skills and projects

Certification

- Java programming certification from Udemy
- Workshop on Internet of Things by Goldman Sourcing India PVT. LTD
- Student development program on DevOps and its applications
- SQL Bootcamp Certification by Let's Upgrade

Extracurricular Achievements

- Actively participated in organizing and conducting events within the college.
- Engaged in team activities, showcasing strong teamwork and leadership skills.
